

Michelle Deputat, Director of Patient Experience and Volunteer Services at McLaren Greater Lansing, was invited as a guest to the very first meeting (in a shelled place before the Collins Rd. campus even opened!!) because she was a hospital leader. After attending that meeting, she wanted to join the group of other local females that included a variety of professional and personal achievements.

Michelle likes the diversity in backgrounds, the welcoming/supportive personalities of successful women from many different professions, roles, experiences. She said, "I enjoy the variety of topics and events the meetings offer; floral arranging and cooking to women's health."

Michelle continues to support the Women's Giving Circle because she is "helping support may different initiatives at MGL, for our patients, our staff and our community."
