

Pam Harden was honored to become one of the first McLaren Women's Giving Circle members when Nicole and Lynn asked her to join. She began supporting McLaren Greater Lansing after her dad had bypass surgery, and other complicated procedures, years ago at McLaren. He's 91 years old now and doing well. Pam said, "I can't thank McLaren enough!"

Pam also appreciates that the women in the group are from all different walks of life. She remarked, "It's been such a pleasure meeting them. Pam loves the meetings, "especially when we hear from different department heads of their needs. We have the ability to aid them with their requests, which helps our community. What we do is important. I love the impact our group is making."
