

Lyn Donaldson Zynda became involved in The Women's Giving Circle when she was a member of McLaren Greater Lansing Foundation Board of Directors. The thing she likes best, is getting together with like-minded women who support McLaren Greater Lansing.

When asked why she supports the WGC, she said, "I appreciate being informed about what is happening at the hospital. I especially appreciate learning about the special programs the various departments are hoping to implement and being able to help them realize these programs. I continue to support the Giving Circle for these reasons and because the meetings are always informative and interesting."
