

Ashley Shunk, Heart Failure, Nurse Navigator, at McLaren Greater Lansing knew she wanted to be part of the Women's Giving Circle after speaking with members of the Foundation team and seeing the incredible impact collective giving could have on her patients and community she serves.

Ashley commented that she leaves each meeting feeling inspired and values the collaboration, shared purpose, and sense of camaraderie that make the group special. She said, "Every contribution, no matter the size, plays a role in creating lasting improvements for our hospital and those we serve. It's incredibly rewarding to know that our efforts help strengthen patient care and make McLaren an even better place for our community."
